[pawar-056493154](#)

In my 7+ years of software engineering, I've evolved from an intern to a seasoned professional, specializing in team leadership and domain-driven project delivery. Proficient in C#, JavaScript, and Angular, I excel in .NET Core, ASP.NET, and database management. With a collaborative approach, I ensure successful project outcomes, leveraging domain expertise and adaptability. My leadership qualities, problem-solving skills, and commitment to continuous learning underscore my value as a versatile and effective team member.

Skills

- ◆ Languages: C#, JavaScript, Angular 11, jQuery
- ◆ Frameworks/Technologies: .NET Core, ASP.NET, MVC 5, Web API, VB.NET
- ◆ Database: SQL Server, Oracle 11g
- ◆ Tools: Postman, SQL Developer, SSMS, PowerShell, Sitefinity
- ◆ Source Code Management: Git, Bitbucket, TFS
- ◆ Cloud Platforms: Azure
- ◆ Agile and DevOps: Jenkins, TeamCity, uDeploy
- ◆ Other: Elasticsearch, Payment Gateway Integration, Google Maps API
